Discover Madera's WINE HERITAGE

The Madera WINE TRADITION

What's the wine industry's best-kept secret? All of the incredible, award-winning wineries in California's Central Valley! As one of the oldest grape-growing regions in America, Madera County has a long and proud tradition of producing high-quality wine.

The Madera Vintners Association was organized as a collaborative effort by Madera's family winemakers, a group of dedicated individuals who share a common purpose in promoting excellence in winemaking. These families are dedicated to directing a region rich in potential through a commitment to winemaking, of both old-world and modern techniques, and sustainable vineyard practices.

We are pleased to invite you to the Madera Wine Trail to visit the wineries of Madera County. Guests visiting the Madera Wine Trail will enjoy the benefits of the region's rich history, knowledgeable staff, and welcoming tasting rooms; where you still experience individual attention, and you taste the pride of the region's winemakers and growers in every sip.

*We look forward to serving
you on the wine trail soon!*
